ARGE Sensorik – Young Researcher Award 2010

The ARGE Sensorik wants to continue the tradition of **awarding outstanding PhD research related to sensors and sensor systems** in Austria.

We thus invite young researchers, working towards their PhD or having recently finished their PhD (but in any case less than a year ago) to apply for this award. The PhD research has to be associated with an Austrian university (i.e. the thesis will be or has been submitted to an Austrian university). It is not required that the associated institute or research group is a member of the “ARGE Sensorik”.

The work will be evaluated by reviewing

- **A selected recent paper** of the candidate (the candidate must be the first author and the paper must be published in or after 2009) which was already published or has been accepted for publication in an international, peer-reviewed, journal.
- The **CV** of the candidate.

Applicants should submit an electronic copy of their selected paper (pdf), the letter of acceptance (if the paper is not yet published), and a brief CV (max. three A4 pages) including a list of publications.

Please email this material using the subject “ARGE Sensorik PhD contest 2010” **by October 15th, 2010**, to bernhard.jakoby@jku.at

On behalf of the ARGE Sensorik Steering Committee

Bernhard Jakoby
ARGE Sensorik Chair
